

M4 MicTrak System Software Version History

You can always download the latest system software for free on the web site shown below.

<https://zoomcorp.com/>

Version 1.10

- **May 2023 release to add the functions and fix the issue below**

- Functions added

1. A stereo linking function that handles audio from INPUT 1 and INPUT 2 as a stereo signal has been added.
2. A function that switches the left and right channel audio from the built-in XY mic has been added.

- Fix the issue

1. Files created by normalizing and exporting could not be played by some apps.

Version 1.00

- **Released as mass production in November 2022**
